Missing teeth are more than a cosmetic issue. They can affect your daily life, your confidence, and your oral health. At **Shrivastava Dental Care**, located in **Banjarin Colony, Sector Banjari, Kolar Road, Bhopal**, **Dr. Ankur Shrivastava** offers world-class solutions to replace missing teeth and bring back your natural smile.

😬 The Hidden Risks of Missing Teeth

Many people ignore a lost tooth, assuming it's harmless. But the longer you wait, the worse it can get.
Here's what missing teeth can lead to:

- 🦴 **Bone Loss**: Without tooth roots, your jawbone starts shrinking.
- 🦷 **Shifting of Nearby Teeth**: Causes crooked teeth and bite issues.
- 🗣️ **Speech Difficulties**: Lisping or unclear pronunciation.
- 😣 **Chewing Problems**: Trouble eating hard foods or enjoying meals.
- 😟 **Facial Sagging**: Gives a prematurely aged appearance.
- 💔 **Lower Confidence**: A missing tooth can make people hesitant to smile or talk.

👨‍⚕️ Meet the Expert: Dr. Ankur Shrivastava

- Painless treatment with digital equipment
- Affordable & customized options for all age groups

□ Treatment Options for Missing Teeth

At Shrivastava Dental Care, we assess your jawbone health, smile design, and budget before suggesting a suitable option:

1 Dental Implants – Permanent & Natural

- A titanium screw is placed into the jawbone
- Crown is fixed over it, acting as a real tooth
- Long-lasting and low maintenance

◈ *Ideal For:* Patients with healthy jawbones
◈ *Lifespan:* 15–25 years or more

2 Dental Bridges – Fast & Fixed

- Uses adjacent teeth to support a false tooth
- Fixed in place (not removable)
- Aesthetic and functional

◈ *Ideal For:* 1–2 missing teeth with support on both sides
◈ *Lifespan:* 10–15 years with care

3 Removable Dentures – Budget-Friendly

- For those with multiple missing teeth
- Easy to wear and remove
- Available in acrylic and flexible materials

◈ *Ideal For:* Elderly or patients with budget constraints
◈ *Lifespan:* 5–8 years with replacements

🛠 The Treatment Process: Step-by-Step

1. **Initial Consultation**
   □ Digital X-rays, oral exam & treatment planning
2. **Smile Design & Tooth Match**
   🎨 Shade and shape selected to match natural teeth

3. **Treatment Procedure**
   ⏱️ Most cases completed within 1–3 sittings
   💉 Local anesthesia for painless experience
4. **Post-Treatment Care**
   □ Instructions for hygiene, diet, and long-term maintenance

💬 Frequently Asked Questions (FAQs)

Q1. Are dental implants painful?
No. Implants are placed under local anesthesia and healing is smooth with mild medication.

Q2. How long does the entire process take?
Implants may take 2–3 months (including healing). Bridges and dentures are completed within 7–10 days.

Q3. What is the cost of missing teeth treatment?
It depends on the type of restoration. Shrivastava Dental Care provides **affordable EMI options** too.
